Escape games are a rather mysterious genre of game; most people, including me, have never really tried one before. Yet they are pretty popular, so what are they all about? Well, the escape room games have the unique concept of locking the player in a room, with clues/arrows/keys and the time limit to figure out what to do next, so that the player solves the puzzle and gets out. In Cliffstone Manor, you will escape from the basement of a haunted mansion which has been abandoned for a few decades. In the basement, you will have to solve puzzles and figure out who the murderer is, before it is too late for you. If you enjoyed the minimalist presentation of others, you will definitely enjoy playing this game. You'll be given a walkthrough, and the audio is purely atmospheric. Enjoy it! Apollo 17 This game is quite appropriate for the Indie Game Showcase IndieCade Fest this year, as it shares a lot of the spirit and entertainment with Myst. At first I was surprised to see this as a top-down 2D platformer with a puzzle-solving focus, but it turned out to be a lot of fun with a lovely presentation. The conceit is that players are astronauts aboard an Apollo 17 spacecraft in the final mission of the program. In the final moments, the (I kid you not) ship's computer runs amok, triggering an emergency escape sequence in the crew compartment. Players must navigate the ship to safety in time, with the help of special items (including a mirror, a radio and a lunar lander) scattered through the game's levels. While there are a lot of things about this game that are reminiscent of Myst, it also shows a lot of the influence of other games, and everything from Animal Crossing to SpaceChem's puzzles are in evidence. The presentation of this game is great too. Visually, Apollo 17 is a lovely, dreamlike, rustic game, and the character design and animation are great too. I'm really glad I gave it a chance, and I'd really recommend it if you're looking for a simple, fun 2D platformer with a nice set of puzzles to solve. Nintutu: City We've seen many real-time strategy games where players grow crops and summon units, and it really is a fun gameplay mechanic. But sometimes it'd be nice c9d1549cdd

**What's new in Blanco: The Color Of Adventure:**

81 Taipei, Taiwan - The world was saved, but its roots were destroyed. Even in the danger of death, Sandy Chen could neither return on his feet nor show unappetizing appearance before Melody. As his soul would never fade away, he felt that his body was also an important one, which shared all the hardships that he experienced. Sandy Chen would never look at his old self with a cold smile again. He felt that his old self, who was weakened, needed to get up every day. Thinking of not dying, his hands were shaking. He raised his arms above his head and looked above his body which could reflect his destiny. "For all long years, you have been the most problematic one for me. Hehe hehe" Sandy Chen couldn't help but laugh in front of Melody as he flipped his eyes back and saw his old self sitting on the floor. But actually, he just couldn't help but feel that he couldn't get up. Even if he could stand up, he still couldn't walk slowly. In fact, he didn't want to promise that he would never come back to the earth again, what he wanted to tell Melody was that he would continue living. "But you look so old my darling. We have to save you first" Sandy Chen was confused by Melody's words, even if he still understood the meaning of it. But Sandy Chen was relieved that Melody was safe, he didn't expect to agree with Melody's statement on the matter. Sandy Chen might have agreed if he didn't know that in the end, Melody, who didn't know whether she belonged to this world or that world, couldn't help him with her magic power. "How did the wind player save my brother?" Sandy Chen looked at Melody and raised his eyebrows. "Hehehehehehehe, it seems that you don't know about your brother. You have already caused enough trouble, that's not it. Hehehehehe," Melody, who was afraid of the End Day, also laughed before she spoke. After hearing her explanation, Sandy Chen was only left with one thought. He had previously imagined that his siblings would come back on the End Day and he would be very happy to see them again. "The world was saved, but its roots are destroyed." Melody's words kept drifting in Sandy Chen's mind. He didn't know
