Recalbox PC 64 Bits - Completo 320gb Mod

Objective. The core objectives of the course are to create a secure, resilient, and powerful network firewall that uses modern security techniques to protect network nodes from intruders, while utilizing Cisco IOS operating systems.

The course will include a study of

command line concepts, Cisco router, and switch configuration principles, an in-depth review of advanced Cisco operating system (IOS) concepts, and instruction on the use of command-line interfaces. Students will gain an understanding of real-world scenarios that necessitate the understanding of networking and security features, and how these features are implemented. By the end of the course, students will be able to make informed decisions with respect to network security.
